-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

It should be noted that claims 19, 22, 25, 26, 27, 28, 31, and 33 were withdrawn by applicant selection dated 8/01/02. Applicant argued that the examiner could examine both embodiments in one search but did not present any evidence to support the traversal. The examiner made the restriction final in the final rejection mailed 11/1/02. Moreover, the restriction carries through the RCE. These claims were not examined and must be canceled in response to this office action since there are allowed claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 39, 43, and 44 are rejected under 35 U.S.C. 102(b) as being anticipated by Roper (US 3,780,899). The upper and lower cross section is approximately square and the middle is nearly circular. The structure satisfies the claim limitations. Regarding claim 43, the substantially v-shaped indentation allows for the groove of Roper as seen in Fig. 1 as 29. Regarding claim 44, the substantially circular term is also broad and the groove satisfies the limitation.

Allowable Subject Matter

Claims 1, 6-9, and 34-36 are allowed.
